

The Most Powerful Technology for Critical Cleaning

Sonix 4 ultrasonic cleaning systems provide the #1-rated cleaning performance in the industry.

- T-Type and E-Type benchtop models are ideal for general use in dental and medical practices with minimal set ups.
- T-Type models range in capacity from ¾ gallon to 7.8 gallon.
- All T-Type models come with a 0-30 minute timer and heater with thermostat control.
- E-Type benchtop models include one touch control for maximum time savings at the touch of a finger.
- T-Type and E-Type systems feature Sonix 4's MaxCav system design that integrates capabilities of the Sonix 4 Acousti-Pulse Generators and PowerMass (60 KHz) Transducers, resulting in intense, high density cavitation for maximum cleaning results.

2/10 Warranty

- Acousti-Pulse Generators covered for 2 years
- PowerMass Transducers covered for 10 years

The Sonix4 Difference:
Hypercavitation

ST 144

SE 236

Product Specifications

- All models include stainless steel cover, drain valve, and stainless steel parts basket.
- E-Types include touch e-timer (5, 10, or 20 minutes).
- T-Types include 0-30 minute timer and heater with thermostat control.

Product	Tank Dimensions in Inches	Liquid Capacity	Max Set-Ups
ST 144	9.5 x 5.5 x 4.0	3.6 Qt / .90 Gal	
ST 136 & SE 136	11.5 x 5.5 x 6.0	6.4 Qt / 1.6 Gal	
ST 126 & SE 126	11.5 x 9.5 x 6.0	10.8 Qt / 2.7 Gal	16
ST 236 & SE 236	11.5 x 12.8 x 6.0	14.4 Qt / 3.6 Gal	24
ST 128 & SE 128	11.5 x 9.5 x 8.0	13.8 Qt / 3.4 Gal	24
ST 118 & SE 118	19.5 x 11.5 x 8.0	31.2 Qt / 7.8 Gal	48
